SEEN, HEARD & TOLD BY THE EDITOR

A busted belt on our press last Thursday (when we were already running late) played hell with an unbroken record lasting from 1937. We did not get the GCWs out into the City on time, Friday; and we were forced to leave out Gore Springs items.

The GCWs out on time and the Gore Springs items are considered "musts" with this newspaper.

Over 100 highway patrolmen met Wednesday in the court house here to hear "the word" passed down by Col. Birdsong to get tough with traffic violators in line with Governor White's recent "get tough with violators" dictum. Dorothy, our reporter, tried to get in but said she could not. The lengthening death toll in this state alarms all users of the highway.

Ellett Lawrence Cliff Hamby and Sax Weir begin saying the GCW aint worth a damn whenever their own names do not appear in an issue. To that list of malcontents, add the name, Albert Cohen, the man with big ears.

We are beginning to figger it this way: it is entirely possible there may develop a surplus of cattle and, consequently, the prices will get lower than at present: BUT cattle dont charge you three dollars a day (and dinner) to kill out the grass in cotton, but will EAT the grass with a charge only of sufficient water now and then; and this grass, in the cow's stomach will develop more and more pounds of beef and will help in the formation of more and more calves, some of them heifers, and this process will go on and on and on; in the process, getting the land richer and richer instead of po'er and po'er. Cattle will not solve all problems, yet a program of killing grass solves no problems.

I personally did not kill much grass, but I had 17 Negro tenants killing grass and all of us went broke at it. The only way I kept from going broke a damsite sooner was because I saved a world of grass in the form of hay, which I sold to other grass killers in the delta. If I had USED the grass, maybe I would not have gone busted at all, I dunno. On a long haul, I am betting on using grass, not killing it.

It looks like April will see more deaths in this community than February, the month of death, showed.

It looks like the Morrisons next door are not going to break Growing Green's reputation of "no busts on Green."

The Commercial Appeal carried the likeness of a Grenada County boy who is doing fine for himself in big Memphis He has broken all records selling cars for Chip Barwick Chevrolet Co. Mary and Fulton McRee are mighty proud of their Jack.

Dennis Lord of Elizabeth, Penn'a, sent me a copy of that famous letter from one Fellow Traveler to an other in re Harry Truman. This letter has been published in the GCW several times, and may be published again. There is always a new crop of readers.

Mr. and Mrs. Pop Costilow are visiting one of their sons in California During Pop's absence, the Coffee Shop is merely dragging on. There are so many Costilows, the writer dont know which Costilow is being visited, but one of them.

An era seems to have passed in Grenada. For about a month, at 6 each afternoon, the fire alarm has been blowing, ostensibly to call folks to prayer. There is no record of anyone praying and, in the meantime, nobody paid any attention to the alarm. Monday afternoon at 6, the steam was ordered off the whistle. Tuesday morning at 8:15 the whistle blew. Smoke was emerging from the front part of Jeff Staten's filling station. The fire department responsed, but nobody else paid any attention. Those who glanced up at all figgered they had started prayin at Jeff's place. Many folks thought it a fool idea, blowing the fire alarm to call folks to prayer, anyway.

Our neighbor and paper-catcher, Frances Marascalco, said she telephoned in the alarm. She is very alert and seldom misses anything that happens.

The City Council meeting Monday was a short horse, soon curried. At the request of Supt. Hathorn, the City is to take necessary legal steps

Mrs. Kitty Avent Dies At Home Here

Mrs. Kitty Rayburn Avent, widow of J. L. Avent, passed away at her home, 370 S. College St. in Grenada at 3:30 p. m. Thursday, April 9, 1953 after being in all health for 10 years.

OLE MISS CHANCELLOR TO ADDRESS ALUMNI

Dr. Williams, Tad Smith On Program Thursday

Dr. J. D Williams, Chancellor of the U. of Mississippi, will address local Ole Miss alumni and backers at a meeting to be held at the Municipal Building on Thursday, April 23, at 7 P. M.

In issuing a special invitation to all Ole Miss alumni, students, and parents of alumni local sponsors of the meeting emphasized that the public is also urged to attend. A steak supper will precede the Chancellor's address and the showing of the films Price of the meal is $1.50, and reservations should be made in advance through William Winter, who is in charge of local arrangements.

The program was organized and developed through the assistance of William S. Griffin, Ole Miss Alumni Secretary.

o issue $50,000 in bonds for more improvements at the white school; Ordinance about air conditioning was changed so such equipment already installed will go ahead unimpended, but future-installed equipment will have to practice water conservation as envisaged in the old ordinance. A trap or something is to be installed on Popular further to implement the fool-proof(?) system already installed at a cost of $400,000. The City will finally learn that monkeying with water is more than a notion.

I am looking forward to eating a fine meal and hearing a lotta good dope at a big telephone meeting at the Barwin tonight (Friday).

A land mark in Grenada has gone. Dyre-Kent has removed its soda fountain. Older folks may remember farther back, but I remember a soda fountain being on that spot when Ben Moore ran the drug store there back in the early 1900s.

A. W. HAMMONS DIES HERE THURSDAY

Beat 5 Loses One Of Its Best Citizens

Attie Wingfield Hammons, 64, died in Grenada Hospital last Thursday, April 9, 1963, after a lingering illness, and his body was buried near Holcomb after funeral services held in the Holcomb Baptist Church Friday.

Mr. Hammons, the son of the late John A. and Lucy T. Hammons, was born in Carroll County November 14, 1889, but spent most of his useful life in Beat Five, Grenada County.

He and Miss Tillman Moore, daughter of Frank and Jennie Spruill Moore of Beat Two, were married March 31, 1911.

Mr. Hammons spent many years of his life in managing the Tom Lampkin old cotton plantation (now owned by Mrs. Elouise Wilkins) and he is generally credited with bringing it from a somewhat broken-down cotton plantation to a fenced and cross-fenced modern and profitable center for raising nice cattle. He later acquired nearby land and did a lot to enhance its value and productivity. In one corner of this land stood the comfortable and happy Hammons home.

He served several terms as one of the trustees of the Holcomb Consolidated School. At the time of his death he was a member of the Grenada County School Board. He also served 4 years in an advisory capacity on the FHA Board.

Mr. and Mrs. Hammons reared 5 boys and 5 girls, most of whom are now grown. By hard work and by the practice of frugality and economy they were able to educate every one of them, and provide college training for most of them. Contrary to what folks know about there being a "black sheep in every family", it was generally agreed that the Hammons family was an exception to that well-estabiiahed rule.

Beside Mrs. Hammons, the following children survive:

Mrs. Dennis Lord, New York; Mrs Roger Elfert, Greenwood; Frank Mammons, Rolling Fork; Mrs. E. E. Tollison, Leland; Victor G. Hammons, Memphis; A. W. Hammons, Jr., Washington, D. C.; Albert Hammons, Greenwood; John Harold of Greenwood and Patsy and Charlotte of Holcomb.

Active pallbearers were: Richard Carver, Kirkland McRee, Earl Clark, A. L. Jackson, Mike Fancher, D. K. Hayden, Charles Perry, Clyde Pritchard.

This ended the career of a very useful citizen.

Wins County Spelling Bee

Lucille Dunn, 8th grade student at Holcomb Consolidated School, spelled correctly the word perpendicular and won the annual Grenada County spelling bee held Tuesday at the Court House.

Lucille, 14 year old daughter of Mr. and Mrs. Archie Dunn, is valedictorian of the Grammar School graduating class this year.

Her teacher is Andrew Jackson Hammonds, also the principal of the Grammar School at Holcomb.

The runner-up in the contest was Marlene Johnson of Gore Springs.

As county winner, she will go to the Mid-South Spelling Bee in Memphis this month. The Press Scimitar, sponsor of the contest, will give her a $25 bond for being the county winner. She will compete with other county winners from the mid-south and if she wins will be awarded a $100 savings bond and a trip to the national bee in Washington, D. C.

APRIL 30 IS LAST DAY TO PUT COTTON IN LOAN

The last date for making cotton loans on the 1962 crpo is April 30 1963. Now might be a good time for producers to check up to see if they have all their warehouse receipts and classification crads to match If producers do not have the classification cacrds and desire to obtain a loan on their cotton before the closing date now is a good time to send samples to a classification office and obtain the grade and stanle length. The producer will need these items before the cotton loan can be made.

A loan clerk can be found at the PMA office located in the Agricultural Building at Grenada, Miss. who will aid the producer in securing the loan. If more information is desired contact the PMA office.

The church is located on the old Carrollton Road about ½ mile south of the Drive-In Theatre. The public is cordially invited to attend the services.

The Enon Baptist Church was first built near the Yalobusha-Grenada County line, known as the Old Fork community. As the population moved nearer to Grenada the church was relocated at Kirkman. When that area was condemned as being in the Grenada Reservoir, the church members moved their church to its present site. As Sunday will be the first time the congregation will worship in the new church, every one is urged to be present.

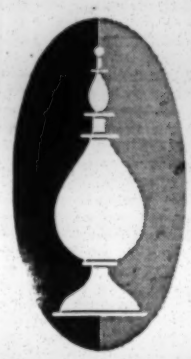
On the cost of medical care



Many of the current prolonged discussions on the high cost of medical care are without foundation. Although it is true that drugs and medical services cost more now than they did ten years ago, the rise in cost has not been out of proportion to the increase in the prices of other commodities and services. The cost of a physician's call is no greater than that of a plumber or an electrician. The cost of the medicine he prescribes is no higher than the cost of a valve, a faucet, or an electrical outlet. Moreover, it must be remembered that money cannot buy good health. It is priceless. No finer, no more economical, no more efficient system of medical care has ever been devised than that which this nation now enjoys.

"Bob sure knows his gas business"

"That's one reason we never really think about all the work and know-how behind Valley Gas service — we just turn on the gas and it's always there to do the job."

All the Valley Gas family strive to give you service you can depend on. And experience is the answer. Bob, like most of us at Valley Gas, has worked in the gas business for years right in this state, and our only job is gas service in our Mississippi territory.

Mississippi Valley Gas Company is entirely home-operated and largely home-owned. A majority of shares in this company are owned by folks in Mississippi and immediately neighboring states. Then, too, Valley Gas is organized only under the laws of this state.

Valley Gas folks know Mississippi and they know how to serve Mississippi people.

Reaching Out

Lesson for April 19, 1953

IF you had asked any one in Illinois about Abraham Lincoln, about the year 1858, they might well have told you he had been a failure. At that time very few persons saw in him his true greatness because so many of his ventures had either failed or not been notable successes. So with many great men. Their towers of success were built on rubble-heaps of failures. So it was with the great apostle Paul. He was sincere, earnest, energetic, from his very first week as a Christian. But he was not successful from the first week. He had tried to preach in Damascus, only to be sneaked out of that city in a basket. In Jerusalem also he had tried, but the brethren tactfully took him to a seaport and put him on a boat for home. In his home town Tarsus no doubt he tried too (we can't imagine Paul sitting around doing nothing), but if he ever had a grain of success there we never heard of it, and Paul was not one to be silent about his successful efforts.

Dr. Foreman

* * *

Home Base

If it had not been for Barnabas there is no telling what might have happened. He was a sort of pastor-at-large for the growing church in the important city of Antioch, then one of the finest cities of the Empire. Barnabas knew his own limitations. He took a trip to Tarsus, located Paul, brought him back as co-pastor at Antioch. Between them they made a great team. The church grew, everybody seemed to be happy; for a whole year Barnabas and Paul must have been the talk of the church. Then one day in a prayer-meeting it came to the hearts of those present that the two associate ministers of that big church should resign; it was God's will that they should. There was something else for them to do. Now that was the beginning of what we now call "foreign missions." But suppose people in the Antioch church had taken the line that some church members take now when foreign missions are being discussed? They could have said, "What? Send Barnabas and Paul as foreign missionaries? Why, they have all they can do here. Why bury their talents in some out-of-the-way place? People in Lystra and Iconium have their own religions, why not leave 'em alone? Let's wait till we get the heathen in Antioch converted before we start on the heathen in Cyprus!" But the church in Antioch (bless them!) did not talk that way, though there may have been a few members who did. As a church they gave their tried-and-true pastors a God-speed and saw them off on the boat for the wide west. It always takes more than a missionary to make foreign missions successful. There has to be a praying, obedient, mission-minded home church.

* * *

Expeditionary Force

Barnabas and Paul, on the other hand, were not like young chaps just out of seminary. They were seasoned mature men, tested workers, known and successful leaders. The church in sending them sent its best. It is a thundering mistake to fancy that you can send to the foreign mission field the poor fellows who couldn't hold down a church in America. It takes a lot more character and ability to make Christ known in a totally indifferent or hostile atmosphere than where there is already a partly Christian atmosphere and where the church is a going and often powerful institution. Whether it's home missions or foreign missions it is the same story. The firing line, the front line, calls for the best. By and large, too, the church has seen this (when it has "seen" missions at all).

* * *

If Not Missions, then—?

Suppose the church never sent missionaries, never did any evangelistic work, quit pioneering everywhere. Then what? Well, what would happen to a firm that never went after new business? What would happen to a newspaper that never wanted new subscribers? What happens to a herd of cattle that never admits new blood? An inbred church is like any inbred family. But the most important question is: What will Christ say of a church that pays no attention to his order: "Go into all the world"—?

* * *

The folks of Lion Oil Company extend heartiest congratulations to the winners of the final Lion Oil Scholarship Fund essay contest for teachers this school year. It is reassuring to know the thoughts of Southern teachers as they prepare our young people for the great opportunities that lie ahead in the Southland. The future is in good hands, capable hands!

Lion Oil is privileged to be able to award these three $1,200 all-expense university scholarships. Each award helps a teacher to gain a more abundant store of knowledge and skill to pass on to the eager youngsters who will be the citizens of our Southland tomorrow!

The Lion Oil Scholarship Fund was started in 1950 in a sincere effort to broaden the educational opportunities for Southern youth. The program was expanded last year to include the teachers who share so much of the responsibility for the continuing progress of our schools.

Sixteen members and three guests were present at the H. D. Club meeting on Thursday, April 9th in the club room.

Following the devotional led by Mrs. Bob Stroud, the president, Mrs. Coy James presided. Mrs. Jim Moore read the minutes of the previous meeting. During the business session plans were made to enter Grenada County H D. Club contest which ends in November.

Commencement Exercises

The commencement exercises of Gore Springs School was held in the auditorium on Friday night, April 10th.

Words of welcome were given by Frances Havens, salutatorian. Bobbie Jean Hayward, valedictorian, gave the response. Rev. Cutrell of Calhoun City delivered the commencement address. Throughout the message Rev. Cutrell stressed the development and using of one's talents.

Certificates were awarded members of the eighth grade by J. E. Gray, Supt. of Education, who urged this group to continue their education.

Attorney Marshall Perry, representative of Post No. 35 presented the American Legion award to Bobbie Jean Hayward and Paul Windham. A gift of $45 was given to the school from the senior class by Guy Havens. Supt. O. D. Spratlin gave out awards and medals and presented the diplomas to the graduation class. He presented gifts from the mascots, little Miss Worsham and Wayne Clanton.

A fine community spirit which deserves recognition was shown through the large attendance at every program during the commencement season. A gain of fifteen students during the past year strengthened the low enrollment and with the increase in beginners this fall, much progress is anticipated for the future. Increased interest is also being manifested in various community organizations and in each of the 3 churches.

The lady who lost a pair of pink gloves may obtain them at Gore Springs post office.

Mrs. Bertha Williams purchased the W. R. Turnbo home on old Hiway 8 and is having it moved on the completion, she and her family will make it their future home.

Engineers House, Knight Have Charge Of Dam

Mr. House Mr. Knight

(Delayed From Last Week)

Grenada gained two citizens when the Vicksburg District placed Mr. John House and Mr. Marion Knight in direct charge of Grenada Dam and Reservoir. Mr. House and Mr. Knight have moved their families to Grenada and are currently working on their respective jobs out at the Reservoir Area.

Mr. House, Construction and Maintenance Supt. of Grenada Dam and Reservoir, is responsible for the operation and maintenance of Grenada Dam and the Reservoir Area, including slope protection, drainage systems, roads, buildings, recreational facilities, and reservoir development construction in the area immediately around the dam. He has charge of maintaining reservoir stages and the condition of the dam proper and all appurtenances. He also has charge of all the equipment used at the reservoir.

Mr. House has been employed by the Vicksburg District for 17 years. He is a product of Carthage, Ark., where he received his high school education. Mr. Knight, Reservoir Manager of Grenada Reservoir, is responsible for managing forest lands in the reservoir to obtain maximum timber production and wildlife benefits; coordinates fish and wildlife management with State and Federal agencies; direct mosquito control; maintains contact with all agricultural leases within the area, coordinating that work with the U. S. Soil Conservation Service and other agencies. He also supervises all recreational benefits on the Reservoir.

Mr. Knight has been with the Vicksburg District since 1936 when he was employed as a rodman on a survey party at McGehee, Ark. Since that time he was employed by the Miss. State Highway Dept. as Inspector on general highway location, layout and construction; Inspector of general construction for the Memphis District, CE; model operator at the Waterways Experiment Station at Vicksburg; made hydraulic computations an dassisted in the design of military and C.A.A. Airports including drainage and sanitary facilities; Inspector (Sanitary) of mosquito control work on Sardis and Arkabutla Reservoirs; Reservoir Manager of Arkabutla Reservoir under Mr. W. H. Deese of Sardis; Construction and Maintenance Supt. at Greenwood Area Office under Mr. Ben Snow, Area Engineer.

MEMORIAL BOOK AVAILABLE

TO NEXT-OF-KIN OF WORLD WAR II MEN WHO DIED IN GREAT BRITAIN

The Times, London, has published a book in remembrance of the American soldiers, sailors and airmen who lived and died in Britain's midst during World War II. This beautifully illustrated volume is being presented as a gift from the publishers to the next-of-kin of each of the 28,000 Americans who either lost their lives and are buried in England, or who were killed in military operations while based on the British Isles. The name of the deceased man or woman will be inscribed in gold letters on the front cover of each copy which is presented.

Publication of the book "Britain's Homage", which describes this British Memorial to American war dead has been made possible by the Times, Printing House Square, London, and the Dulverton Trust.

Although "Britain's Homage to 28,000 American Dead" is now available for distribution, it has proved impossible for the publishers to obtain a complete list of names and present addresses of the next-of-kin. It will, therefore, be necessary in each case fro the next-of-kin to make a request for a copy of the book to: "Colonel The Honourable J. J. Astor, The Times, London, Inc., 45 East 51st St., New York 22, N. Y." When writing give following information:

1. The name of the relative who died while serving in the U. S. Forces based upon Britain.
2. The name or title of the unit in which he or she served. — 3. The writer's name and full address and relationship to the deceased.

The information received in this manner will be sent by air to the Times, Printing House Square, London. A copy of the book will then be forwarded direct to the applicant, free of all cost.

For further information call or write L. D. Boone, Jr. Service Officer, Warren E. Campbell Post, 4488, Veterans of Foreign Wars, Grenada, Mississippi.

There's no slackening of the freight train's speed, no break in the rolling rhythm of the locomotive exhaust. For the engineer and fireman know that ahead the shining rails stretch away empty and waiting in the spring sun. . . . They know, too, in dark of night or storm. For the signal they call a "board"—for the old-time semaphore arm—is now a piercing light so brilliant that it shines for miles in the brightness of noon as well as the black of night.

There also are yellow and red signals to tell them when the track ahead is occupied by another train—signals that afford ample time to stop the heaviest, fastest train.

For improvements such as these new automatic color-light block signals there is never beginning or end. In the past five years the Illinois Central has put nearly $133 million into improved steel highway and equipment.

Why do we spend so much? First, for safety—greater safety for men and for property entrusted to our care. Second, for faster, more dependable and economical transportation service for you and all the people of Mid-America.
